Mr. and Mrs. Harry Peters were guests of Mr. and Mrs. Charles Dean at Pine Island last weekend.

Mrs. Johnny Hawkins and daughter Dianna left Monday for their home in Atlanta following a visit with her mother.

NEWS VIEWS  
By E. D. DODG

Summer time means swimming, sunbathing and a little excitement with it. We never did discover why we come here, but it is a fact that many of us do. We are here to enjoy the sun, the sand, the water, and the people. We are here to relax and to have a good time. We are here to enjoy the best of everything that nature has to offer.

Mr. and Mrs. Lester Rudy will leave this weekend to spend a two weeks vacation with relatives in Trion, Georgia.

Mr. and Mrs. Jack Hollingsworth will leave this weekend to spend a two weeks vacation with relatives in Trion, Georgia.

Mrs. Allen Greer and her brother, Mr. Charles Greer, Sgt. Hawkins arrived last weekend to take his family back. They were accompanied by Glenn Bair who will be their guest for a few weeks.

Postmaster and Mrs. George Farnell returned this week from a two weeks vacation spent at Fort Myers Beach.

Mr. and Mrs. Otis Hayes left last week for Fort Valley, Georgia where Mr. Hayes is operating a cannery plant and will later go on to Sparta, Pennsylvania for the remainder of the summer.

Mr. A. D. Arnold represented the local postoffice at a State Clerks' Convention held at Miami Beach last Thursday through Saturday. Mrs. Arnold accompanied him.

Mr. and Mrs. Fred Williams and family of Headland, Alabama have been visiting the past week with relatives and friends in Belle Glade and were guests of the Milton Beckins and the Buck Herrings.

Mrs. V. A. Boots and children spent several days this week with her father, Mr. S. L. Stewart, in Labelle. Mr. Boots is attending the Lions' Convention in Atlantic City.

Mr. and Mrs. A. F. Hopkins have returned from a vacation in New York where they spent of his sister and husband, Mr. and Mrs. George Parmelee in Poughkeepsie, and Dr. and Mrs. Forrest Ashbrook in Scarsdale. They also visited old friends in New York City.

A recent guest of Miss Barbara Will was her college room mate, Roslyn Clary, of Crestview, Florida.

Attending summer school at West Palm Beach College are Mrs. Milton Barry, Mrs. Warren Battle, Mrs. Herman Close and Mr. Ralph Mathes. The ladies are driving in each day.

BRIDAL SHOWER HONORS  
MRS. HUBERT C. SWAIN  
A shower in honor of Mrs. Hubert C. Swain was held last Friday night at the Community Club house. Before her marriage at the First Baptist Church June 8, Mrs. Swain was Miss Kathryn Cook. Hostesses were Mary Edens, Florence Bore, Gloria Crosby, Betty Layfield, Clara Stein and Dorine Matheson.

The room was attractive with bouquets of roses and fern. Little packets of rice tied with ribbon were given as favors.

The honored guest received many lovely gifts. Refreshments of cake and punch were served to the guests.

SUPPER WILL WELCOME  
NEW METHODIST PASTOR  
A potluck supper will be given at the Methodist Church tonight at 7 o'clock welcoming the new minister, Reverend E. L. Holliday, his wife and family.

Arrangements are in charge of the Women's Society with Mrs. V. A. Boots as chairman. Church members and friends are invited to attend.

SHOWER COMPLIMENTS  
MRS. RALLS MACKAY  
Mrs. Ralls Mackay was complimented with a stork shower immediately following a joint meeting of Joy and Star Circles of WSCS held at the Methodist Church Tuesday night.

Hostesses were Mrs. John Schoenfeld, Mrs. F. D. Stevens and Mrs. Milton Barry. Gifts were presented to the honoree in a pink and blue decorated bassinet.

Contest games suitable to the occasion were played. Others present: Mrs. Ralls Mackay, the honoree; Miss Margaret West, Mrs. M. Bedsole, Mrs. Emil Wolfe, Mrs. E. O. Gangstad, Mrs. Lee Berryhill, Mrs. Frank Morris, Mrs. Aubrey Arnold, Mrs. V. A. Boots, Mrs. F. C. Schoenfeld, Mrs. Sidney Smith and Mrs. Al Vadaz.

Punch and cookies were served.

LEGION AUXILIARY HAS  
WEINER ROAST AT PARK  
Members of the American Legion Auxiliary enjoyed a weiner roast at the City Park Monday evening. Mrs. Lucy Gregory was in charge of arrangements.

Those present included: Lois Carlson, Mabel Tedder, Esther

and classrooms will be located on the second floor.

The one story second wing will have five classrooms, and boys' and girls' locker and toilet facilities.

According to the plans, the proposed third wing will include seven classrooms and a cafeteria.

The new gymnasium and auditorium building, which will be erected north of the school plant will be built in the present program. It will house the coaches' office, stage, equipment room, boys' and girls' locker and shower facilities and visitors' lockers and showers.

Although the gymnasium will be separate from the school, long range expansion plans show a connection between the two.

Architect Workman, Lake Worth, has built the schools in Palm Beach County since the first, and designed the South Bay School which will soon be ready for occupancy. He was architect for the recently built colored Everglades Vocational High here.

In addition to county school plants, he designed Seacrest High School, the Delray Colored high school and he is working on two for Ft. Pierce now.

## **OKECHOBBEE LEVEE IN PAHOKEE UNDER REPAIR**

The Lake Okechobee Government Levee between Bacoem Point and Okechobee is being heightened by the Smith Engineering and Construction Co.

Crown of the levee will be raised three feet on a one and one-half mile stretch. This section was badly eroded in the 1947. Although repairs were made following the storm, United States Engineers decided to reinforce these sections by grading the slope of the levee on the lake side to make it less steep and by adding the fill.

This is designed to break the wind tides which move the dike in a severe storm. When the fill is completed both the lake side and the top of the levee will be paved with six-inch asphalt-sand mix similar to that used on highways.

Paving of the levee is accomplished in a unique manner. Dump trucks, attached by conveyor to a specially designed tractor on top of the levee, are lowered down the side of the levee, pouring the mix into the spreader box.

With the addition of the three foot crown to the levee it will be 70 feet wide at the top of the slope to the crown. The contract was let to the Smith Construction Co. on bid \$177,860. The company hopes to complete the work within a month.

**SHOOTIN' BLANKS**  
(Continued from Page 1)  
Tide ends were running rampant when a young hunter, who appeared at the threshold. He wielded the instructor, who was at the opposite end of the hall and in turn the instructor frantically motioned the reporter to stay put until he could devise some pulley method of projecting himself to a position convenient for conversation.

But the reporter, determined that nothing should dampen his zeal, plowed on through the tide. The professor duly excited rushed into the dinner spot and with a sliding motion, as graceful as a gavel, and over a long, thin, and sharp surface, knocked over the basket of dirty suds and ended up with his head on the scrub brush.

The reporter still alighting in the middle of the water tray, smiled blithely down on the profanity and asked, "Hey, do you have any news, Al, and young man was headed for success.

My boss has been duly humored and lost his mobility kept him from mentioning it. I shall assume the responsibility and take matters into my own hands.

The Herald brought a steer for the Lions Ranch the other day.

## **Do's and Don'ts for Your Summer Vacation Automobile Trip**

Automobile travel on the nation's highways is expected to reach a new peak this summer. To help travelers get the most pleasure out of touring, and to help keep their cars in the best possible condition, the Buick Service Department reminds owners of the following DO's and DON'T's.

- DO be particularly careful to watch crankcase oil level on long trips.
- DO remember to switch tires and to watch pressure, especially on hot days.
- DO wash your car once a week to remove road film and chemicals.
- DO sit in a comfortable, erect position and rest frequently.
- DO keep the windshield free of dust and dirt at all times.
- DO give your car a Lubricate treatment.
- DO remember that most drivers can get 10 per cent more miles per gallon by observing common sense.

and club members retailed by selecting a sizeable steer with not too much hair on head to name Luther.

The Lions Club recently received a communication from Verrill Books from Atlantic City where he is attending the national convention with Emmett H. Hester.

He stated that they were both having a wonderful time and proceeded to enumerate Robert's activities. He failed to mention his own line of action and consequently, speculations are running wild here.

**Cancer Information Center**  
Open in Belle Glade July 5

**ALLISONS SPEND LAST WEEKEND IN KEY WEST**  
Dr. and Mrs. R. V. Allison, daughter Karin, and their house guest Dr. Allison's sister, Miss Mahol Allison of Bryan, Ohio spent last weekend in Key West.

**CUNHA SAYS FEED IS MOST IMPORTANT IN PRODUCING LIVESTOCK**  
The most important problem in livestock production in Florida is adequate feed, according to Dr. T. J. Cunha, head of the animal husbandry department of the Florida Agricultural Experiment Station.

"And winter feed is the most serious phase of that problem," Dr. Cunha declared. "Normally, Florida pastures are good during the spring and summer if they are managed properly, but cattle must have supplementary feed during the winter months if they are to fare well and maintain their weight."

To avoid weight losses and even losses of animals, the Experiment Station worker explained, all cattlemen in the state should be thinking about and planning for supplies or feed for the winter. He recommended production of hay wherever possible, reserving portions of grazing land for use in the summer to allow it to make good growth for fall, and making arrangements for supplies of cottonseed meal and other protein feeds for use in winter.

In making his recommendations, Dr. Cunha emphasized that enough feed is a primary requirement for successful livestock production, and that attending to the matter of correcting specific mineral or vitamin deficiencies, while very important, is secondary. "After an animal has enough to eat," he said, "the producer can then strive to balance the ration so that it contains enough minerals, vitamins, carbohydrates, and fats for maximum results."

The Experiment Station worker emphasized that all farmers who are raising livestock should be continually trying to increase and improve their production of pasture and other feed.

**HOW TO SAVE ON COOKING BILLS**

**WHEN YOU PLAN A ROAST**  
FOR DINNER, TAKE ADVANTAGE OF HOT OVEN BY BAKING POTATOES, PUDDING... COOKING VEGETABLES IN COVERED SAUCEPAN • ELIMINATES USE OF TOP GAS BURNERS

Nature study is so much fun any place, but is even more fascinating here in Florida. Take the children hiking and trail blazing for a really exciting time. The flora and fauna of Florida will give every member of the family an interesting hobby.

Of course our own favorite hobby—whenever I can I can recommend to anyone interested in whiling away summer days. There are many interesting books about shells, and after going through these catalogues you will find yourself eager to get out on our beaches to discover one of Nature's most marvelous secrets.

**COUNCIL FONDERS**  
(Continued from Page 1)  
try Club priv, and James Garfield Williams, gardner, were appointed to permanent positions, following examinations. Commissioners voted to cancel Zelman's ten month contract with the city and place him under civil service. They moved over concessions at the center be placed under his wife.

Vacation periods for city employees were discussed, and commission voted that any employee under civil service and on the monthly payroll or those pending examination on the payroll are eligible for a one year vacation for each full calendar month of work. The motion was made retroactive to May 1, 1950.

Commissioner Junius Harris was authorized to spend \$2,500 for materials for a scheduled street department work for the next two months.

City Attorney Herbert Beck stated that the city suit against A. L. Wallis, former city clerk, is still pending and is progressing. We are working toward a judgement, he stated.

The city clerk read a letter from the county public schools thanking the commission for in-

stalling roads and parking area on the east side of the football field.

★ Use the famous

GMAC BUDGET PLAN

While driving, you become aware of adjustments or repairs that are needed to place your car in first class running order. In the past you may have postponed doing anything about them. Now times have changed. Delay in having repair work done... and having it done right... could have unfortunate results. Why not play safe?

**Here's How...**

1—Check on a list what you have observed is needed.

2—Bring your car in for a free inspection and estimate. There may be some items not so noticeable requiring attention.

3—Then you decide what you want done. And ask about our GMAC plan for repairs and accessories on convenient monthly payments.

For Top Service on All Makes of Cars...

BELLE GLADE, FLORIDA

901 N. W. LAKE ROAD

### SOUTH BAY BEAN CITY LAKE HARBOR

Mr. and Mrs. J. C. Brown and family are on a two weeks vacation visit with his parents, Mr. and Mrs. W. H. Brown at Statesboro, Ga.

Mr. and Mrs. Arnold Hudson and son are attending the Seventy Day Adventist Camp meeting near Orlando.

R. S. Donaldson is leaving

soon to spend the summer visiting in Washington D. C., Pittsburgh, Pa., and fishing and visiting in Canada.

Mr. and Mrs. Fredrick Smith, parents of Mrs. Henry Elfers, who spent the winter in Okeechobee are returning to DeWitt, Neb. for the summer.

Mr. and Mrs. M. Davis and sons Butch, Bertram and Bryant are in Donaldsonville, Ga. with her parents Mr. and Mrs. Tom Moulton. She will submit to a major surgical operation before returning home.

Mr. and Mrs. Mark Challinor and three children, Mike, Jimmy and Vicki left last week for the vegetable area at Hamilton, N. Y. He took several truck loads of negro labor for work in the market garden fields in N. Y.

Ed. Smith of Bean City was rushed to the Belle Glade Hospital Monday morning suffering from a heart attack.

Lawrence L. Simmons was called to Brandon last week by the illness and death of his father Frank Simmons.

Mr. and Mrs. Frank McLeod and two children have moved to South Bay from Runyon and are occupying one of the Dayson cottages. He will be employed at the Okeelanta Sugar Coop.

Mr. and Mrs. L. W. Knight and family have leased Jean's Motel and moved into it from Belle Glade.

Mrs. James Junt, Angela and three children are visiting in Dublin, Ga. Mary Lou is the house guest of her grandmother Mrs. L. L. Simmons.

Miss Irene Dawson of West Palm Beach was in South Bay the first of the week looking after her mother.

after property interests and visiting friends.

Mr. and Mrs. Alfred Vadazek Karen and Karol are leaving the last of the week for a two weeks vacation visit with her father Alex Vadazek at Hartsville, Ohio. They will also visit Mr. and Mrs. Bill Graber and other friends in that vicinity.

Mrs. B. M. Pender will accompany Mr. and Mrs. J. Lee of Cleveland to Peach Orchard, Arkansas for a visit with kinfolk.

Mr. and Mrs. A. B. Barnes were hosts Sunday at a family reunion dinner in honor of their son Donald, who is home on furlough from Fort Bragg, N. C. Guests were Mr. and Mrs. Leonard C. Keene, Patsy and Lydia Lou of Pahokee, Mr. and Mrs. Marvin Miller, Billy and Sue of Okeechobee, Jess and Mary joined the group in the afternoon.

Miss Marlene Walker has returned from a week visit with her sister Miss Maxine Walker in Miami.

Karen and Gwen Gove are guests of their grandmother Mrs. Fannie Brown for the summer while their mother Mrs. Genevieve Gove and sister Sandra are attending summer school in Gainesville.

Jack Walters of Bartow was the Sunday guest of Mr. and Mrs. Clayton Walters. The day was accompanied by Mr. and Mrs. Ray Sullivan, Baby Ray of Belle Glade, Peggy, Ronnie, Shelly and Buddy. Hike enjoyed an outing and picnic dinner at Ortuna Locks.

Mr. and Mrs. D. L. Shiver and children, Donna Faye and Roger Walker spent Sunday at the Lake Worth Beach.

Mrs. Harold H. Hardy and daughter Sue of Opa Locka visited her parents Mr. and Mrs. Clarence M. Lee at Lake Harbor last week.

Mrs. O'Neal Walker and son Gary have returned from a visit with her mother at Tampa. Her son, Gary, has returned turned with her for a visit in the Glades. Enroute to Tampa she visited her sister, Inez Shively in Fort Myers and her sister Miss Evelyn Haven accompanied her to Tampa and return.

Mr. and Mrs. Clayton Waters visited friends at Jensen Beach Tuesday.

Principal Calvin J. Peacock was taken ill at Gainesville and had to return home for the summer. He is taking treatments for the alleviation of an old foot-ball injury to his spine.

Baptist Men Form Group To Meet Each Monday

The men of the Baptist Church of South Bay organized a Brotherhood Friday evening with twelve members. They will meet at 8 each Monday evening.

Officers elected were W. W. Ferguson, president; Edwin Best, vice-president; A. J. Williams, treasurer; and Jack White secretary.

They plan an active campaign among the men of the community to secure their attendance at church and their acceptance of the gospel.

Other members are Carroll Warren, Rev. James N. Purcell, Jay Smith, W. C. Allen, Henry Kenneth Warren, Jack Hicks, Julian Woods.

LOCAL GROUP ATTENDS COOP PICNIC IN MIAMI

Mr. and Mrs. H. C. Willis, Mr. and Mrs. E. M. Willis, Barbara, Johnny and Joan, Mr. and Mrs. F. B. Willis, Frankie, Dan, Dick and Doris Mr. and Mrs. S. M. McAllister of South Bay attended the Miami Retail Groceries Coop picnic at Crandon Park Sunday.

The MHG Coop is made up of some 131 retail grocers in south Florida who are members in the association and buy their supplies through this organization. The picnic was for members of the association, their personnel and families. There were 1400 persons at the picnic.

JEAN HOOKER TO DIRECT RECREATION PROGRAM

The summer recreation program sponsored by the County and State Board of Education assisted by the local Parent Teacher Associations and other civic organizations will open in South Bay and Lake Harbor on Monday, July 2, under direction of Miss Jean Hooker of Chosen, who has been elected to the Belle Glade Elementary School faculty for the coming year.

Monday will be given over to the registration of the children. Mothers are requested to accompany pre-school age children and to meet with Miss Hooker to arrange for regular

assistance with the director in handling the nursery school group.

Miss Hooker will be in South Bay during the morning starting at 8 o'clock for registration here and at Lake Harbor Monday afternoon at 1:15 for registration there.

The schedule of hours for the present will be 8-12 a. m. and 1:15 to 5 p. m. Monday, Wednesday and Friday she will be in South Bay during the day and Thursday at Lake Harbor. This schedule is subject to change and any changes will be announced.

The program will be carried on with organized sports and recreational games of all kinds. Also indoor games and handicraft will be provided for rainy days.

Miss Hooker was graduated from the Belle Glade High School with the class of 1947 and received her degree from the Florida State University at Tallahassee in June, having majored in elementary school education and recreation.

Later Day Saints Group Attends All Day Session

Members of the Church of Latter Day Saints from South Bay and Belle Glade attended an all day session of the General Conference of the Church in West Palm Beach Sunday. Over 200 persons were in attendance with delegates from every district in south Florida from Key West to Fort Pierce and Key Beach.

Three sessions were held, one morning, a leadership meeting after lunch followed by the second regular session which closed at 4:30 o'clock.

President and Mrs. A. J. Choates presided with two recorders from headquarters at Atlanta to take the record of proceedings.

There were seven special speakers during the day including Mr. and Mrs. H. D. Meeks, officials at the Mormon Cattle Range development between Kinsimie and Orlando.

President and Mrs. J. H. Martell of the South Florida District, Elder Bell Schumway, wife and daughter from Orlando and daughter from Orlando were among the group.

Special musical numbers, songs, trio and quartet were arranged throughout the day.

Ruby Cameron was pianist and Mrs. Edna Ladd led the singing.

On the agenda for the day was the election of all general authorities and South Florida officials who were voted upon by the conference to be certified by the church at large.

David O. McKay, formerly one of the Twelve Apostles, was being elevated to Proctor or head of the church at Salt Lake City.

The West Palm Beach church was host at a luncheon of baked ham, potato salad, baked beans, chicken and rice, cake and pie. 175 plates were served at lunch.

NEW CHARTER MAKES SOUTH BAY A CITY

The South Bay Town Council met last week to canvass the ballots at the recent special municipal election held to approve the charter recently passed by the state legislature as House Bill 970. They approved the election board's report of 59 ballots cast for 1 against and proceeded by resolution to dissolve the Town of South Bay and create and establish the City of South Bay, according to the new charter.

The present officers will hold over by provision of the charter until their terms expire. The next municipal election will be held on October 2 at which time two councilmen and a chief of police will be elected. The terms of C. E. Cliffield and Mark Challinor as councilmen expire at that time. Holdovers are Mayne O'Neal Walker and Councilman Melvin Herring, M. J. Hardy and R. G. Fisher.

The City Council took action to secure a permanent water meter reader and instructed the clerk to post notices calling for written applications to be presented at their next meeting on July 3. Applications may be filed at the City Hall previous to the meeting.

The Council also took action to cooperate with the Lions Club and American Legion in their summer sport ball recreation program by assisting with the expense of erecting poles and flood lights for the proposed field on 8 vacant lots in the rear of the South Bay School.

FIRE GOTS ONE STORY FRAME BUILDING HERE

A one story frame dwelling located on SR No. 80 just outside the western limits of the City of South Bay was gutted by a fire of unknown origin early Sunday morning.

A passing motorist noticed the flames within the house and notified the South Bay Fire De-

partment about 1:30 Sunday morning. Fire Chief Mead Willis stated that they had the few moments after reaching the scene but that the interior of the house, all furnishings and personal effects were a total loss owing to the fact that the fire had such a head start before discovery.

The house, former home and still owned by J. W. Strickland of West Palm Beach, was occupied by Mr. and Mrs. L. Brown and family. The family had left early Saturday morning to spend a few days vacation on Fort Myers beach.

Fire Chief Willis stated that the fire broke out on one, Rankin Brown, was in South Bay spending the night with Junior Walker.

Chief of Police R. C. White stated that the fire probably started from defective wiring, possibly at the stove.

The Browns are temporarily located at the Walker Hotel until a permanent home is available.

Civil Service Examiners Announce Opening

The Board of U. S. Civil Service Examiners, Corps of Engineers, Department of the Army, Mobile District, Mobile Alabama announces competitive examinations for indefinite appointment to the positions of Construction Inspector in several specialized fields. Positions range in grade from GS-3 \$2500.00 per annum to GS-7 \$3825.00 per annum and will be located in the Mobile Engineer District. No written test will be required in connection with this examination.

Applicants will be rated on the basis of experience, education and fitness for the positions. Further information regarding these positions and necessary application forms may be obtained from first or second-class post offices or at the Mobile Engineer District Office, 2301 Grant Street, Mobile, Alabama and applications should be submitted to the Board of U. S. Civil Service Examiners, Mobile, Engineer District.

As for driving habits, Mr. Roos declares, "The two worst gas wasters—outside of habitual speeding—are jack rabbit starts and quick stops. Violent pres-

sure on the accelerator squirt gasoline into the cylinders faster than it can be used efficiently, while sudden stops waste momentum already built up by expended fuel, in addition to wearing out brake linings."

Mr. Roos' figures on gasoline waste were based on current gasoline prices. In the state, number of miles "got" per gallon of gas by the average motorist and the latest available state-wide mileage figures released by the National Safety Council.

Impatience, negligence and incompetence—the three cardinal sins of the gasoline waster—are costing Florida motorists more than \$700,000 annually or about \$82 for each vehicle owner, according to a recently published study by one of America's topflight automotive engineers.

After a series of controlled mileage tests lasting more than a year, Delmar G. Roos, former president of the Society of Automotive Engineers, has concluded that the average motorist gets less than half the motoring miles he should out of a gallon of gasoline.

The primary causes of gasoline wastage says Roos, are speed, mechanical negligence and sloppy driving habits. Speed alone cuts mileage almost in half," Mr. Roos says. "In rigidly controlled tests over a measured mile, a Willys station wagon consistently averaged 31 miles per gallon at 20 miles an hour. However, at 40 miles an hour, mileage was cut considerably.

Hedding a list of mechanical sins lumped in Roos' study under "negligence" are faulty spark settings, cylinder compression and tire pressures. Each of these factors cuts gasoline efficiency between three and six per cent—and costs the motorist between one and two cents extra for each mile he drives.

"Tire pressure is a good example of the high price of carelessness," Mr. Roos says. "When tire pressures were four pounds lower than they should be, the station wagon averaged one mile less per gallon of gas. At average gasoline prices this bit of carelessness alone would cost the motorist more than a penny a mile.

Other common mechanical faults affecting fuel mileage are dirty air filters, dragging brakes and improper wheel alignment.

"As for driving habits," Mr. Roos declares, "The two worst gas wasters—outside of habitual speeding—are jack rabbit starts and quick stops. Violent pres-

## STETSON COACH EXPECTS LEATHERS TO IMPROVE POSITION THIS YEAR

Stetson Hatter football fans this year will have two more games to round out the season's schedule and some big lineups for his team.

McMullen wants to open the season at home even though it be only a practice game. If the University of Miami trains near here, a practice season may be scheduled for September 22. The Hatters and the Hurricanes staged a practice game last year in the Orange Bowl.

October 6 is an open date. This probably will go to Patrick Field, if that post fields a team this season. If not, another opponent will be sought.

Otherwise the schedule reads: October 13, Furman University at Greenville, S. C.

October 20, University of

mer at University of Pittsburgh, would like to have one or two more games to round out the season's schedule and some big lineups for his team.

October 20, University of

Tampa at Deland. October 27, Florida State University at Tallahassee. November 3, Erskine College at Due West, S. C. November 10, University of Richmond at Deland. November 17, Wofford College at Spartanburg, S. C. November 24, Livingston State College at Deland.

## Too Late To Classify

By Russell Kay

Both the general public and the racing interests should look with genuine approval on the new State Racing Commission, appointed by Governor Fuller Warren last week. The men named are well known and respected, and by this action, the Governor has taken a long step toward restoring confidence.

The severe criticism of the old commission and its questionable operations by the Haley Committee which followed the prior finding of the Referee Committee had placed racing in a shaky position. One legislator went so far as to attempt to wipe it out entirely.

On the new commission are two members of the legislature who resigned to accept the appointment. State Senator G. Warren and State Representative D. C. Jones of Naples. Both are able and respected men who can be depended upon to serve well in conducting the affairs of the agency.

Equally capable are the other members of the commission: Carl Hanton of Ft. Myers, Lawrence Roberts of Kissimmee and Charles S. Isler of Panama City. As publisher of the Ft. Myers News-Tribune and a former president of the Florida Press Association, Carl Hanton is well and favorably known throughout the state. During the time he was actively editing the paper he was the most quoted editorial writer in Florida and his writing was packed with sound reasoning and couched in language that was forceful and impressive. He is thoroughly familiar with governmental functions and is not the kind of a man who will permit the word to be pulled over his eyes or who will hesitate to speak up when the occasion demands.

Lawrence Rogers of Kissimmee, attorney and former publisher of the Kissimmee Gazette, has a long background of public service to the community and state. He has served as city judge and mayor, and in order to accept the Racing Commission post resigned as vice chairman of the Central and South Florida Flood Control District.

Charles S. Isler of Panama City has practiced law for 13 years and at the time of his appointment served as city attorney. A graduate of the University of Miami, he is also a Navy war veteran and was a member

of the ethics and grievance committee of the Florida Bar Association.

D. C. Jones of Naples (Collier County) was representative in the 1951 House where he served with distinction and credit. He is a former member of the Florida Game and Fresh Water Fish Commission.

Senator G. Warren Sanchez of Live Oak has a clean and brilliant record as a legislator having served in both the House and Senate. He should serve with equal credit on the Racing Commission.

The new commissioners replace the five commissioners whom the State Senate refused to conform following the Haley Committee investigation and report which had nothing but harsh words for the old commission appointed in 1949.

Members of the old commission were Leo Edwards, Miami; Roy Patience, Crescent City; B. P. Beville, Gainesville; Ralph L. Crum, Lakeland and Percy O. Corbin, Blountstown.

The Haley Committee found that the commission's affairs were conducted in "an atmosphere of jealousy, deceit, indecision and displayed a total lack of unity."

The Committee also charged that the old commission reinstated several known bookmakers, conducted its affairs without justification, to Florida tracks. It further found that expense accounts "were irregular and appeared to amount to unlawful expenditure of State funds for the personal benefit and pleasure of one of the commissioners."

It is significant that no member of the newly appointed commission comes from an area where racing is established and operating. Areas where the integrity of dog and horse race tracks are located are not represented on the Commission.

The task ahead of the new commission is no easy one. The public will look to the members to do a real job in cleaning up the situation and restoring respect for the racing set up in the state.

## Young Vegetable Growers Can Aid Defense Efforts

Florida farm youths were told recently they can make a direct contribution to the nation's defense program by taking part in this year's production-marketing contest of the National Junior Vegetable Growers Association.

"Secretary of Agriculture Brannan has called for greatly increased vegetable gardening," said A. R. Cox, Executive Secretary of the Florida Association of the Future Farmers of America, "and I feel this contest, teaching more efficient methods of growing and selling vegetables, will be very helpful in building up adequate reserves of food supplies for emergencies."

In announcing opening of the

NJVA's eleventh annual competition, but that it is directly with the Department of Agriculture's belief that an expansion of vegetable gardening in all states will contribute material strength to national defense efforts.

With a per capita vegetable consumption now more than 10 percent above prewar levels, and our population steadily increasing, it is easy to see the value of such a program," he said.

Cox, who serves as the association's state chairman, said all Florida farm youths, from 12 through 21 are eligible to compete in this contest, for which A & P Food Stores annually provides \$6,000 in cash agricultural scholarships. "Actually," he explained, "besides getting fine training in vegetable growing and selling and an opportunity to win one of more than 200 awards this contest offers, contestants will be able to learn a lot of things."

"First of all, the crops from the plot each contestant must plant, cultivate, harvest and market in order to compete in this event will add to our supply of healthy, nutritious foods. In addition, we will learn of the fine results these boys and girls achieve through the use of modern, scientific methods, and be encouraged to adopt similar practices. The result can only be a bigger and better vegetable crop throughout the nation."

Any young gardener may enroll in the NJVA's production-marketing contest by contacting the J-H Club leaders, county agents, instructors in vocational agriculture or any other farm youth leaders who are cooperating with the association in enrolling members. Youths may also join by writing directly to Cox at the Department of Education in Tallahassee.

In addition, the production-marketing contest of the 1951 program will include the annual demonstration contest, in which individuals or teams compete in demonstrating new methods of planting, cultivating, marketing or preparing vegetables. Jurors will be selected by the J-H Club leaders who are cooperating with the association in enrolling members. Youths may also join by writing directly to Cox at the Department of Education in Tallahassee.

Wen A. Jara of Malabar won a state award in the 1950 production-marketing contest.

PEARSON TELLS HOW TO AVOID SPOILAGE OF FROZEN MEATS IN HOMES Gainesville, Fla.—Cold is the best insurance against loss of fresh meat from spoilage, according to Dr. Albert M. Pearson of the University of Florida Agricultural Experiment Station.

Bacteria which cause spoilage of meat are especially active in warm weather, cold storage is more important during the summer than other seasons of the year, the Experiment Station animal husbandman points out.

Meat spoilage may be caused also by molds and oxidation or a combination of bacteria, molds, and oxidation but the major cause of meat spoilage in the home is bacteria.

Dr. Pearson recommends that freshmeats be stored in the coldest part of the refrigerator, under or adjacent to the freezing compartment—where the temperature is or should be about 32 degrees. Meat should be wrapped loosely to allow the surface to dry out to some extent and so a moist surface will not be provided for the growth of bacteria.

Even under good storage conditions, however, meat deteriorates rapidly, and only quantities to be used in two or three days should be kept in the refrigerator, the meat expert adds. If meat is to be kept for longer periods it should be wrapped in freezer-locker paper (ordinary butcher wrap paper allows meat to become dehydrated) and stored in a freezer—home freezer, or frozen and kept in the freezing compartment of the home refrigerator.

To avoid losses due to rancidity (caused by oxidation of fat and action of enzymes in the tissue), Dr. Pearson advises against holding frozen sausage more than three months, frozen pork for more than six months, and frozen beef or lamb more than a year.

Molds on cured meats can be removed with a cloth soaked in vinegar unless they have penetrated the muscle fibers. Freezing such meats will prevent mold growth.

Dr. Pearson also reminded homemakers that liver, sweetbreads, and booby spoil more quickly than other meats and should be used shortly after they are obtained or frozen to prevent spoilage. As mild-cured packer hams may spoil, they should be used quickly or stored in a freezer or refrigerator. If freezing facilities are not

available and spoilage may develop before meat is to be used, the Experiment Station worker recommends cooking the meat, wrapping it tightly to prevent dehydration, and using it as soon as possible. Cooked meat will keep for longer periods than fresh meat.

## NEGRO NEWS

## New Bethel Baptist Church

Rev. W. Foster, Pastor

Sunday School was opened at 9:45 a. m. with Supt. Sandy Kendall in charge. The teachers were at their posts. Lesson was "The Church under persecution." The lesson was beautifully reviewed by pastor Foster.

Morning devotion was conducted by mother Daisy Hart and Sis Estella Brown of Okeechobee, Fla. after which Rev. Streets came forward and read the scripture, he delivered a very interesting sermon on "The Ten Virgins."

At 6:00 o'clock a spiritual devotional service was conducted by Dea. M. L. Brown. The senior choir rendered inspiration song service.

Each Monday night the home mission society meets at the Church. On Tuesday Senior Choir rehearsals are held and Thursday night is Prayer meeting. Sunday July 1, is trustee day. Rev. P. Besley of West Palm Beach will be in charge of the service all day. You are welcome to worship with us.

At 3:30 the city wide Y W A will meet.

## St. Johns First Baptist Church

Mrs. Estella M. Conner, Reporter

Rev. J. R. Adams, Pastor

Sunday School was opened at 9:30 a. m. Supt. Pouncey and teachers were at their posts. Subject of the lesson was, "The

Church Under Persecution." Memory selection was "Be faithful unto death, and I'll give you the crown of life." A beautiful chateauson was given by the pastor.

Morning devotional service was conducted by Dea. L. Miller. Scripture lesson was read by the pastor.

A brief and interesting message was delivered by Rev. B. Besley of West Palm Beach. Subject was, "I want to go home."

B. T. U. was at 6: p. m. with the president in charge. Evening worship was conducted by Dea. J. Thompson. Meditation hymn by the congregation.

A short sermon was preached by the pastor. Subject was "Hope is the anchor of the Soul."

All auxiliaries of the church invite you to attend their weekly meetings.

## REDDICKS TO DIRECT AT OKEECHOBEE CAMP

The summer recreation program at Okeechobee Camp will begin Monday under the direction of John A. Reddicks, physical education instructor at Everglades Vocational High.

Mr. Reddicks, also instructor at the high school, will assist. The program will include volleyball, basketball, softball, horse shoot, shuffle board, home beautification, arts and crafts and home gardening.

Program hours are from 8 to 12 in the morning and from 1:15 to 5:15 in the afternoon five days a week.

A special patriotic program is scheduled at 7 p. m. on the Fourth of July. Reddicks announced.

## VETERANS INFORMATION AND SERVICE

Veterans with military service during from May 27, 1950 were put on a par with World War II veterans with respect to certain benefits by the quick passage through both houses of Congress, of Public Law 28, 82nd Congress, and signed by the President on May 11, 1951. This speedy action resulted from recent newspaper publicity regarding a Korean veteran who was denied admission to a VA Hospital.

Under Public Law 28, persons who served on or after June 27, 1950 now may receive medical, hospital and dental

care and burial benefits on the same basis as veterans of World War II. Also, such persons and their dependents now may be eligible for compensation and pension under the same conditions as those who served in World War II.

In presenting the resolution for consideration on May 10, 1951, the Committee on Veterans Affairs announced the proposal to include burial benefits and language to make certain that dependents of veterans also were covered by the proposal.

The Law provides: First—Hospital Care and Medical Care for non-service-connected disabilities in the same manner as now provided for World War II veterans. This means that a veteran can be admitted to a Veterans Administration Hospital for an injury not received or connected with the service if a statement is signed that he is unable to pay for the hospitalization and medical care and if a bed is available.

Second—Burial benefits of \$150 and an American flag. Third—One-year presumptive period of service connection for atomic and tropical diseases. Active pulmonary tuberculosis has a 3-year presumptive period.

Fourth—Public Law 28 is restricted to laws and veterans' regulations administered by the Veterans Administration, and thus does not involve retirement rights which some former members of the Armed Forces enjoy. Neither does it provide for preference in obtaining of Federal employment on a parity with WW II.

Fifth—Compensation and pension to both the veterans and their dependents at the wartime rates.

These veterans are also entitled to Prosthetic Appliances, Public Law 16 training and Wheelchair Housing, when VA requirements are met.

Your local Veterans' Service Office will answer your questions, or write to the State Service Office, P. O. Box 1437, St. Petersburg.

KIRKMAN CAUTIONS CO. MOTORISTS ON SPEED

Motorists of Palm Beach were cautioned today to observe all traffic regulations regarding speed in message by Director N. K. Kirkman, Florida Highway Patrol.

"Driving too fast for conditions is the number one traffic killer of the day," Kirkman's message said.

Regardless of the posted speed limits, motorists of the county should be governed by the conditions existing at the time they are travelling along the streets and highways.

"If the road is wet or if there appears to be a heavy concentration of automobiles and pedestrians, it is imperative that the speed of your car be reduced," he said.

Kirkman's message which was sent to the press and radio from State Headquarters of the Patrol, stated other factors to cause the reduction of speed under the

THE INDIGO SNAKE

Lomest snake in North America is the Indigo Snake, which is common in Florida. This harmless, blue-black reptile reaches a length of more than eight feet. It feeds upon rats, mice, and other snakes, including rattlesnakes. It lays six or eight leathery-shelled eggs which are larger than goose eggs, and the young are nearly two feet long at hatching.

While they do all they can to stop infested, infected or quarantined plants from coming into Florida by plane, train, and ship, Plant Board workers cannot possibly stop and inspect the thousands of motor vehicles that cross the state line daily.

So Mr. Frierson and other Plant Board workers are asking those who travel to keep pests out of the state for the protection of Florida's great agriculture.

NO SAFETY IN HOMES REPORT FIGURES SHOW

The home may be regarded as a sanctuary of safety by many Floridians seeking to avoid the hazards of modern existence.

But figures released today by the Florida State Bureau of Vital Statistics show that—except for motor vehicle accidents—more fatal mishaps occur in the home than in any other place.

In a report prepared by Dr. K. E. Miller, assistant to State Health Officer, Wilson T. Soderstrom, it is noted that: "Home is commonly believed to be a place of safety. The record, however, leaves some doubt in this belief. Of the 1,039 deaths recorded in 1950 from causes other than motor vehicle accidents, 465 or 45 percent occurred in the home."

Most perilous age ranges include the young, under five years of age, and the old, those covered from an analysis of figures and beyond, Dr. Miller discloses for the 1950.

In the old age range from 75 years and beyond, 214 persons died in all non-motor vehicle accidents. In the young age group under five, accident deaths claimed 137 building citizens.

Florida had its share of freakishly fatal accidents during 1950, the report shows. One Floridian lost his life while surfing, bathing, when a wave struck him with such force that he suffered a broken neck. Lacking a two-year-old child in an automobile with the windows closed brought on death by suffocation. In another instance, a seven-month-old infant caught his neck in a high chair and strangled to death. In still another instance, a pecker pinned in a tree was struck in the eye by a bamboo pole and severed an artery which eventually caused his death.

Evidence that Florida is still a state of wide open spaces in spite of the fast population growth of recent years is seen in the fact that a resident of this state became lost in the woods and died of starvation before help could reach her.

BRINGING PLANTS BACK FROM VACATION MIGHT CAUSE SERIOUS LOSSES

During the next few weeks, many Florida people, rural and urban, will make vacation trips out of the state, and it is to be hoped that they will not bring plants back with them on their return.

When one visiting in another state sees a beautiful flowering plant or a fine young fruit tree that he may have to plant in his yard or on his farm, it is difficult sometimes to resist lusting the plant or tree in the car and bringing it home.

Plants or plant parts that might be brought in from other states in such fashion are too dangerous to take the risk, however, for they may be infested with insect pests or infected with diseases that are not present in Florida and that would cause great loss to Florida agriculture if they became established here. For this reason, said Paul E. Frierson of the State Plant Board recently, everyone is urged not to bring home un-inspected plants from other states.

There are some costly pests in other states that fortunately, have not become established in Florida, and the Plant Board staff is making every effort to prevent them from becoming established here.

In requesting vacation travelers not to bring plants to Florida, Mr. Frierson pointed out that such costly pests as citrus canker, the Mediterranean fruit fly, and the weevil bryanth were brought into Florida from elsewhere. Pests that are not in the state now but could cause heavy losses if they became established here include the pink bollworm of cotton,

ones, develop internal browning if held where it is colder than 45. Between 56 and 60 is ideal for bananas—the reason they should never go into the refrigerator.

## KISSIMMEE RODEO IS SCHEDULED JULY 3-4

The Kissimmee rodeo—long famous for its action—will get the glamour treatment this year, as emphasis is placed on special acts such as trick riders and tricker riders, according to "Shang" Bronson, chairman, of the 1951 Independence Day show scheduled for July 3 and 4.

"People throughout the Southeast have recognized the Kissimmee rodeo for the genuineness of its action," Bronson said. "Year after year substantial prizes have attracted more and more cowboys to participate, and that part of our show has been without equal."

But some people have missed the color and refinement of Madison Square Garden and the Silver Spurs are taking steps this year to build up that phase of their show.

"We are inviting Dave and Delores of the Cheyenne and Sulphur Springs," Bronson said, "to give our spectators trick riding and trick roping talent that will compare with any show in the country."

In addition, Fay Blackstone of Pierre, S. D., and Parish, Fla., and Nell Austin of Brady, Texas, and St. Cloud, will round out the trick riding team.

Mildred Murphy of Avon Park, will return with her famous high schooled horse act, and Stakes of Center Hill, has been invited to clown the show.

A number of new steps are being perfected by the Silver Spurs quadrille team under the direction of Oscar Lee "Slim" Partin, Bronson said.

The 1951 event will be staged for three performances, Tuesday and Wednesday nights, July 3 and 4, and an afternoon performance of Wednesday, July 4. Climaxing the July 4 night show will be a display of professional fireworks—its own innovation for the Kissimmee show.

STETSON OFFERS PROGRAM OF COOPERATIVE TRAINING

Civic groups or interested individuals of Belle Glade have an opportunity to assist two or more worthy young people of this area to get a complete college education through the new co-operative plan just announced by Stetson University.

One full time year-round job will permit two persons to get the degree at Stetson in five and one-third years instead of the usual four years and pay all costs limit to the number of students in this area who may be so benefitted are the number of jobs available. This is the first time a co-op program has been offered by a university in Florida although the plan has been highly successful in other states.

A wide variety of courses are available. Stetson has a College of Liberal Arts, a College of Law, a School of Business, a

School of Music, graduate work, and military training in the university ROTC.

Complete information on how the co-operative plan works and the benefits provided may be had by writing to: Director of Co-operative Training, Stetson University, Deland, Florida.

Coupled with the co-op program are extensive plans for adult classes. In charge of both programs is E. B. Crim, for the last two years director of the adult education program for Florida Southern College.

GADSDEN'S YOUNG AND ADULT FARMERS TRYING TO RAISE CORN YIELDS

Members of Gadsden County 4-H clubs and Future Farmers chapters and adult farmers are growing corn closer in the row, making split applications of fertilizer, and applying more fertilizer in efforts to increase their production of this crop.

Boys competing in the 1951 Gadsden 4-H and FFA corn contest applied nitrogen side-dressings to their plantings recently, and they are anticipation high yields as a result of this and other approved practices, Asst. County Agent Bernard H. Clark reports.
